

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

I support the Federal rules designed to enhance "diversity, competition, and localism" if these are axed, they will likely be replaced by a system that basically permits the biggest media companies to "serve the public interest, convenience, and necessity" by focusing on their corporate bottom lines. The free media is a mechanism of democracy made-up of its people.

Please do not unregulate the media. The people need more control and interaction with the media.
